Watch your sun exposure!
The summer months are the most dangerous in terms of getting overexposed to the sun. Always use sun block with a high SPF and moisturizers to ward off the harmful rays. The warning signs can be so simple: freckles, liver spots, uneven tones. These can all be the early signs of sun damage. And 90% of the time sun damage is followed by fine lines and wrinkles, sometimes worse. Be sure to know what your need. Sunscreen has a lower SPF (2 or higher) and does not contact a physical block. Sun Block has higher SPF (12 and above) and contains an actually physical block that sits on your skin and ensures protection.

Body Source has all the protection you need from your favorite brand: Australian Gold. From great moisturizers like Australian Gold Forever After ,Australian Gold Body Kisses , and Australian Gold Moisture Lock Tan Extender to the best in sun block like Australian Gold SPF 8 and 15, Australian Gold SPF 30 and 50 , and Australian Gold sprays and gels

And of course, Australian Gold has the best lotions for indoor tanners (see below)who can have that bronze look without ever being out in the sun!
